

A BATH BRAND THAT IS

BORN  
FROM  
ART

Artize

# ART IN EVERYTHING

Being creators of art ourselves,  
we cater to design connoisseurs  
around the globe.

Consequently, our bathroom  
products are not only designed  
to surpass the highest  
standards of luxury, quality,  
and perfection but also seek  
inspiration from high art ranging  
across forms, time, and borders.

# WHERE ART MEETS TECHNOLOGY

While an eye-catching piece of art does seem like the ideal way to add character to your bathroom, why should your bath fittings be any less than works of art? Beauty and functionality mingle at every turn in each Artize offering.

The result - an elevated bathroom experience where art and technology co-exist.

The background of the entire page is a photograph of two large, abstract, dark-colored sculptures against a soft, hazy sky at sunset or sunrise. The sculptures are elongated and fluid in form, with one figure on the left reaching upwards and another on the right with arms outstretched. The lighting is warm and directional, creating highlights and shadows on the smooth surfaces of the sculptures.

# MEET THE ARTISTS

Artize products are conceived by globally renowned designers who use Artize's 'craftsmanship' approach to create objects rooted in nature and top-notch design sensibility.

MICHAEL FOLEY

LISA BOSI

CLAUDIA MERONI

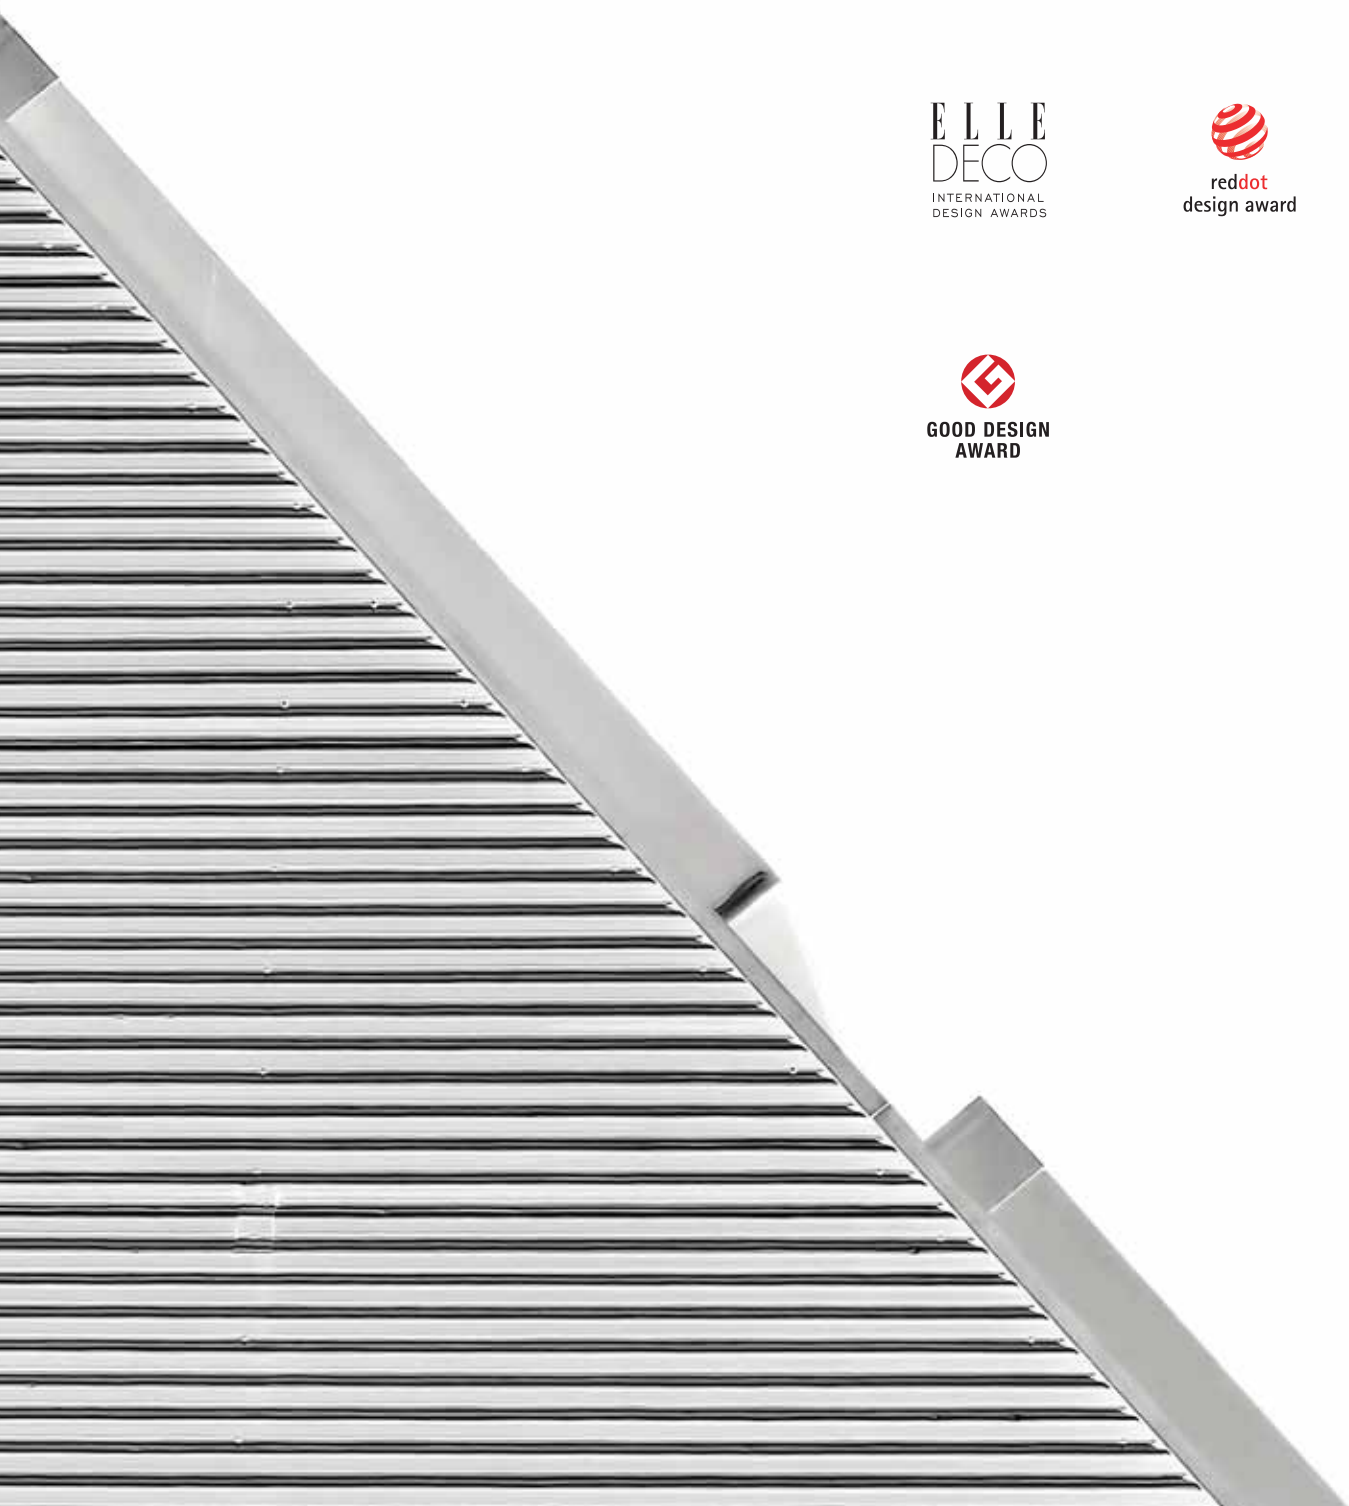

PARICHAY MEHRA

# WINNING DESIGNS, WORLDWIDE

Our craftsmanship-centric philosophy has helped us win a number of accolades, including the prestigious Red Dot, Good Design and iF design awards, among others.

# COLOUR IN ART

The role of colours in any form of art moves way past aesthetic fulfillment. A foremost dictator of mood, colour possesses the power to communicate feelings of happiness, sadness and the entire spectrum of emotions in between. Its role in any work of art cannot be undermined. This includes Artize's artisanal creations that come in varied Colour Finishes to help one feel further connected to their bath space.

## ARTIZE SIGNATURE

The innovative, fluid, almost-sculptural pieces that define the Signature Collection remain unparalleled in their design and temperament alike. Bring home a slice of revolutionary contemporary art born of iconic artistic endeavours such as Art Deco-inspired minimalism and ancient Japanese pottery. Signature is bathroom luxury at its most opulent.

# ARTIZE SELECT

Bold yet elegant, futuristic yet rooted in tradition, the Artize Select collection never fails to catch one's eye. Inspired by groundbreaking art movements, from the Dutch De Stijl to the Russian avant-garde, each creation in this diverse line is the epitome of form-meets-function.

Origami paper cranes (Picture: Riccardo Oliva, Unsplash). From the Japanese words for folding ('Ori') and paper ('kami'), the art of Origami is over a thousand years old and was once the leisure activity and art form of the elites in society.

A unique and graceful sculpture designed by Claudia Danelon, Tailwater is a striking and iconic piece of bathroom fitting – a new, minimalist design classic, that captures a zoomorphic, abstract image of a bird, perched on the edge of a pool in a beautifully engineered piece of industrial design.

# TAILWATER

---

TAILWATER

# Tailwater | Faucets

Inspired by nature and the elegant, fluid lines of contemporary architecture, Tailwater has curves that echo the movement and flow of water, while its reflective surface appears as seamless as liquid metal. The 'tail' acts as a mixer lever, which moves smoothly backwards to open and to the left and right for hot and cold water.

'Rythme', a 1938 oil on canvas by Sonia Delaunay, known as the founder of Orphism, a version of Cubism in art.

Designed like a piece of jewellery, with echoing ovals, Tiaara, by Michael Foley, is a faucet that brings a unique sculptural quality to a commonplace function and elevates its usage into a memorable experience.

# TIAARA

---

TIAARA

# Tiaara | Faucets

Redefining the method of dispensing water, Tiaara's lever is an integral part of the faucet, and intuitive to hold and swing out. Its position determines the temperature of water and the amount that flows. A simple arc of movement that provides every flow rate and temperature needed.

In East Asian art, the bamboo is a traditional motif symbolising calm, flexibility and resilience. It is known as one of the 'Four Gentlemen' of nature, representing summer.

The Confluence faucet, designed by Parichay Mehra, is inspired by the age-old use of bamboo in channeling water from rivers and brooks. Its biomorphic design delivers a calming, serene flow of water.

# CONFLUENCE

---

# CONFLUENCE

# Confluence | Faucets

The carefully angled, bamboo-inspired channel of Confluence ensures that the flowing water stays within the contours of the open faucet. The dual-fall dispensing system also guarantees that the water arrives without creating a splash.

'Infinity Mirrored Room' by Yayoi Kusama, a part of the NMAOC, Mumbai's permanent collection. Acknowledged as one of the top artists of the world, Kusama says the earth is "...only one polka dot among a million stars in the cosmos. Polka dots are a way to infinity."

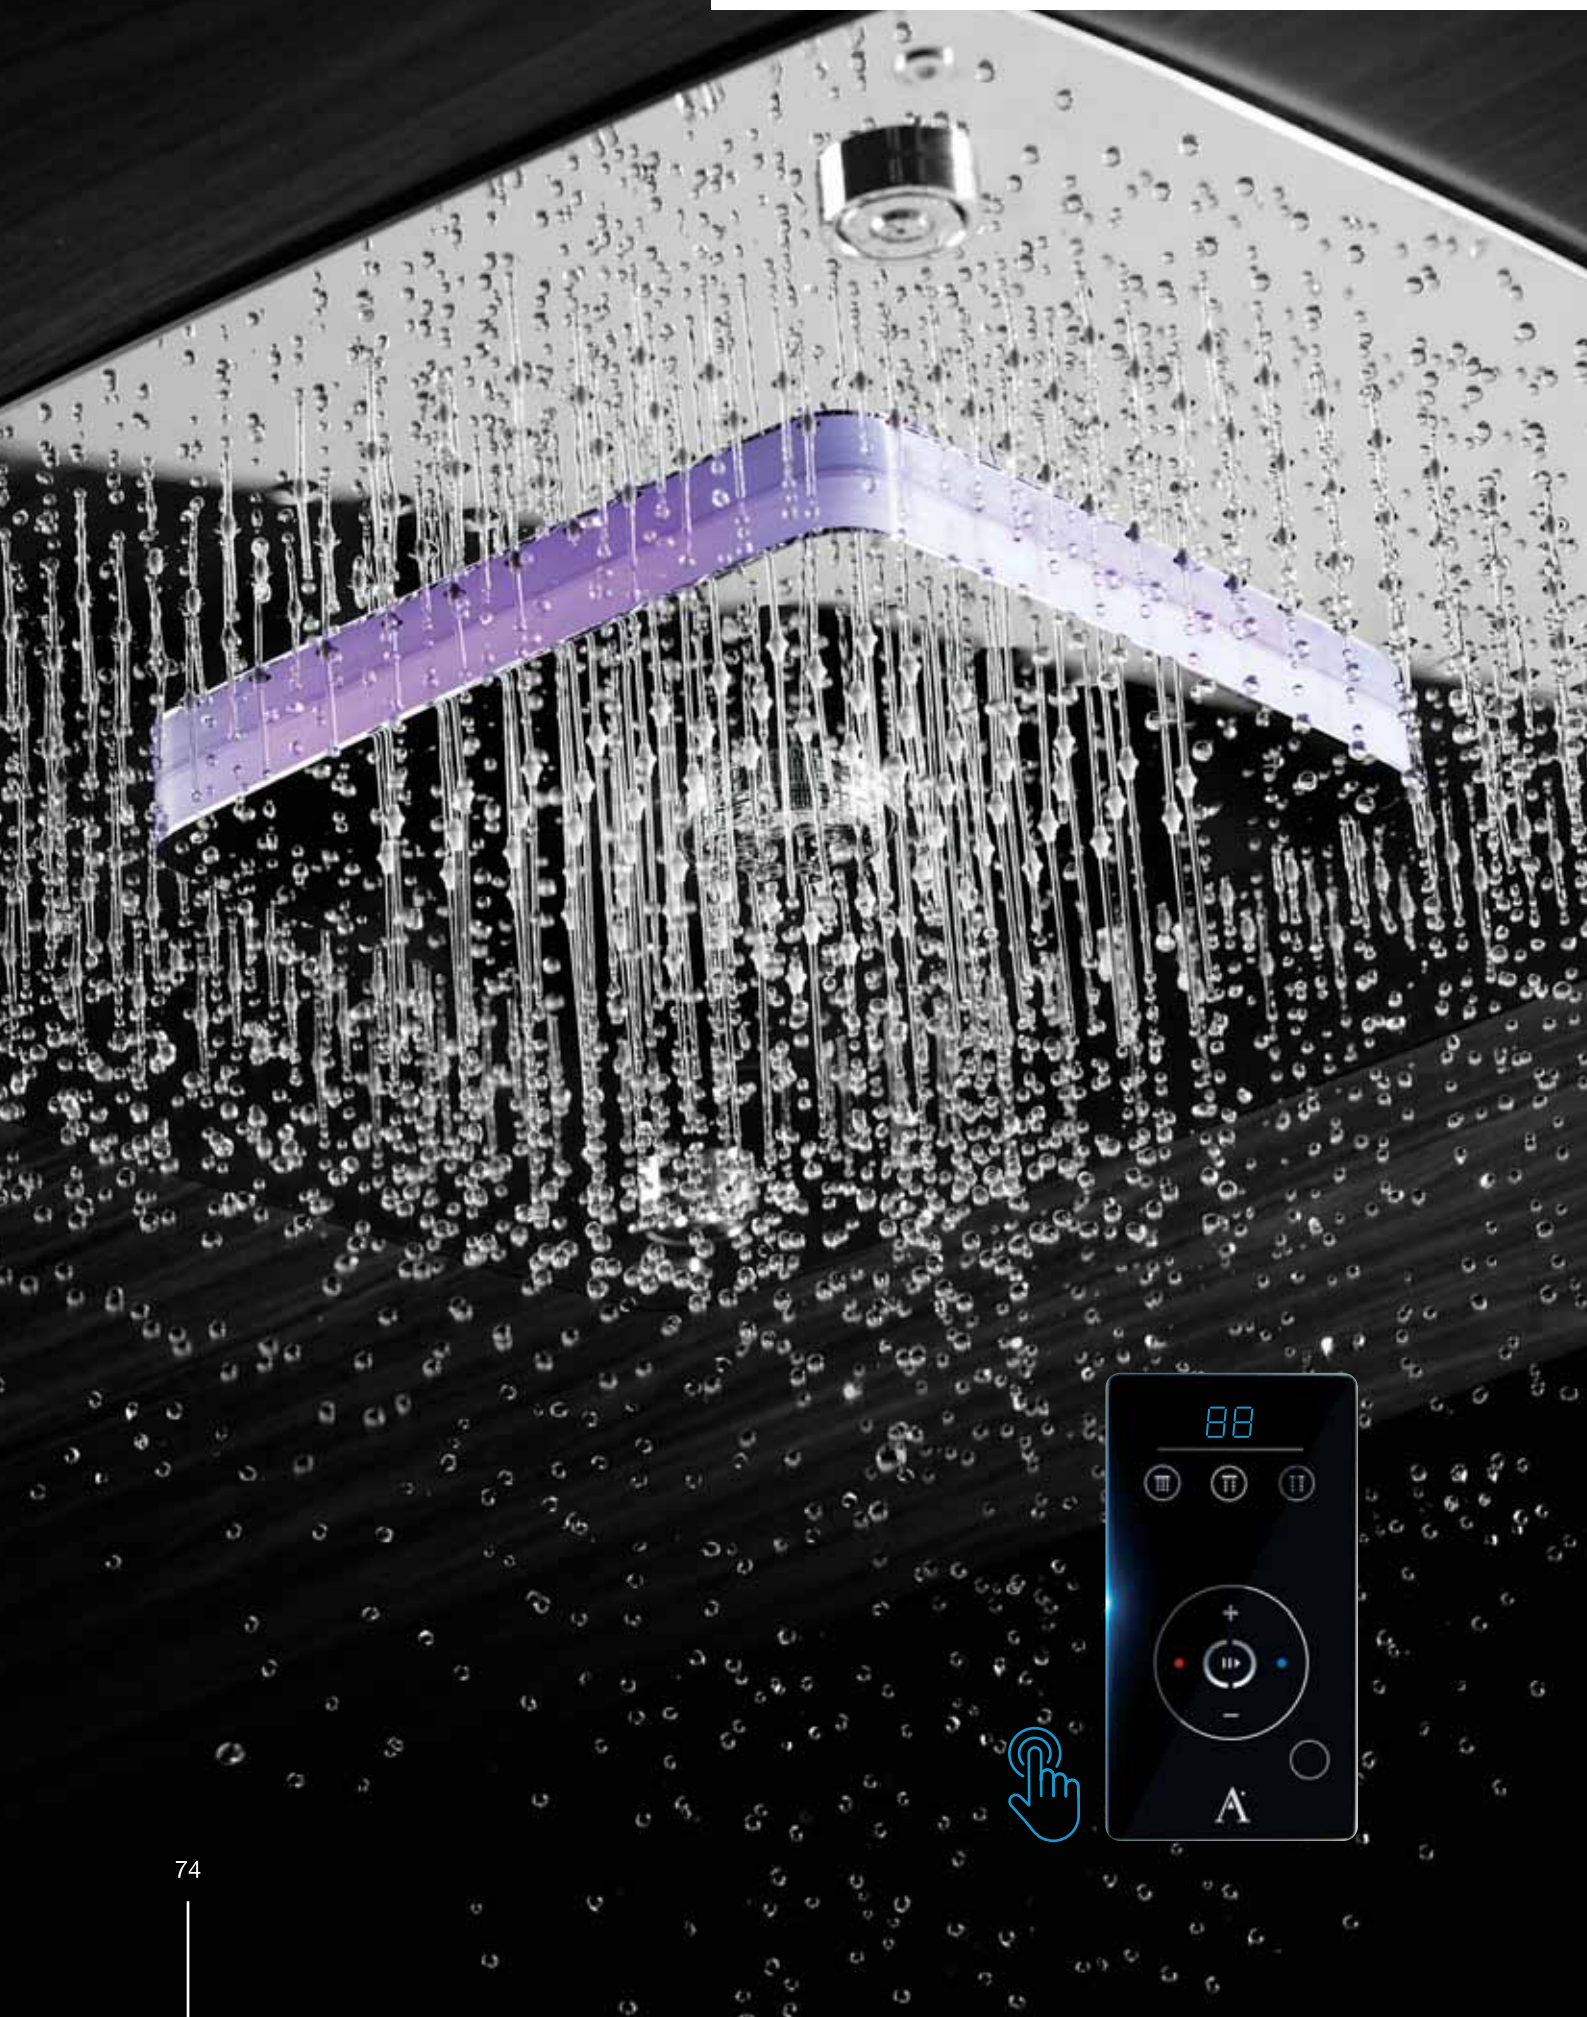

An intelligent water mixer system Showertronic brings state-of-the-art technology to the bathroom. From a waterproof, high-durability touchpad it gives you the ultimate in showering control, letting you choose the perfect shower mode, water temperature, flow rate, and much more.

# SHOWERTRONIC

---

# SHOWERTRONIC

# Showertronic

Artize ShowerTronic iV6 is a touch based, intelligent water mixer system, which automatically maintains the water temperature and flow rate during showering. It comes with a host of features designed to deliver the ultimate showering experience.

## Colour Finish:

CHR  
Chrome

## An Electronic, Thermostatic and Flow-Static Mixer

Showertronic has been designed to be easy to operate, totally safe, and offer uninterrupted showering luxury even in tough, Indian operating conditions. It also offers several key advantages over other systems since it is an Intelligent Valve Sensor System.

## The Advantage of Showertronic's Technology

**No cartridges:** no small electric motors or other similar parts that need to be recalibrated or replaced. iV6 runs on intelligent software

**Handles differential pressures:** even up to 5 Bar, between hot and cold water inputs

**High-precision sensors:** to check water flow rate and temperature every 50 milliseconds for instant control and cut-off, if required

**Safety:** low voltage (12V DC) compliance for wet areas

PIEZO-ELECTRIC  
TECHNOLOGY

**Durability:** great for continuous use thanks to the absence of friction, IP 5-4 components, and piezo-electric technology – which makes it India's first reliable, fully electronic thermostat

### Touchpad

An electronic touch interface based on piezo technology, the touchpad consists of different laminated layers, making it extremely robust, resistant and long-lasting with a high level of user-friendliness. The interface controls the shower flow rate and temperature, enables the water outputs desired by the user and executes the CPU's smart programs such as the start-up program, clean-up program, thermal disinfection program or warm up program.

### CPU iV6 / 6 outs

Smart electronic device with digital reading and accurate, stable, thermostatic regulation of water temperature and flow rate at the consumption terminals. Designed to be integrated in showers, columns, cabins or bath areas.

### Power Supply System

The system comprises of 12V DC power supply, a battery backup in case of lack of network voltage and a voltage peaks protection. Batteries are charged with the usual power supply, ensuring that they are always correctly loaded.

'Building Bridges' by Lorenzo Quinn. Six pairs of monumental hands bridge the basin of the Arsenale in Venice, Italy.

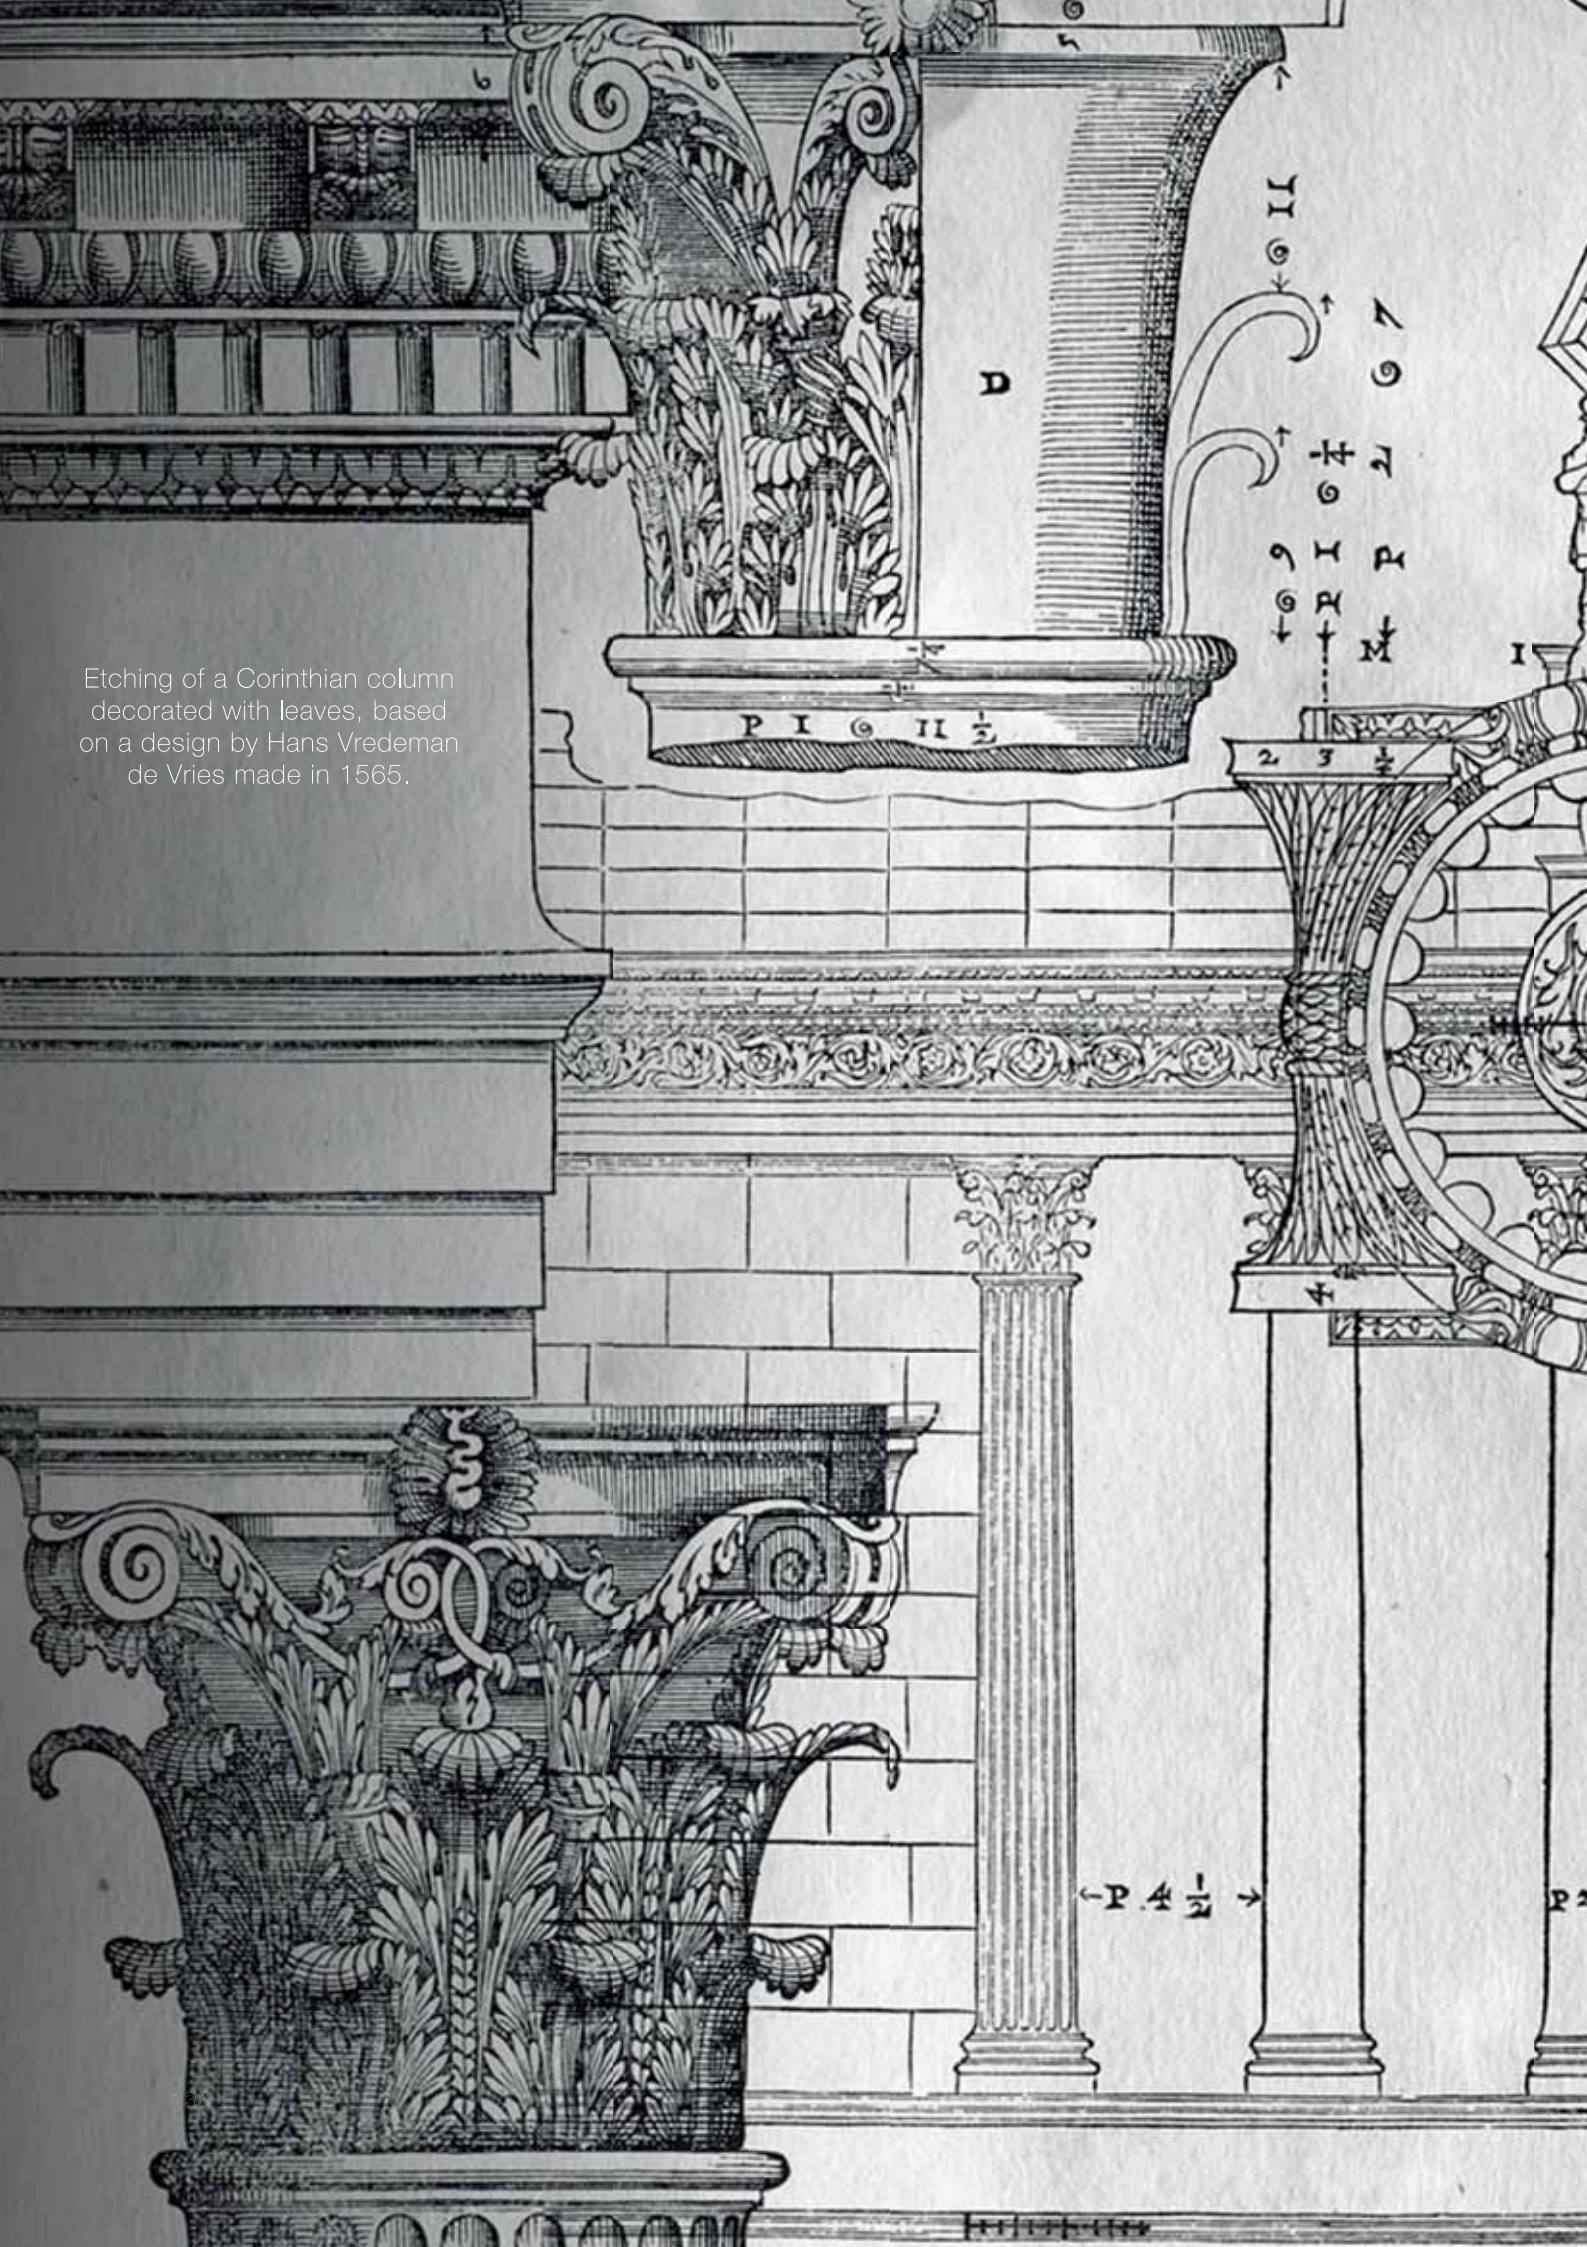

ARTIZE SELECT

Etching of a Corinthian column decorated with leaves, based on a design by Hans Vredeman de Vries made in 1565.

Inspired by a period in which a more lyrical and detailed aesthetic was the norm, VIC by Claudia Danelon and Federico Meroni is a modern neo-classic. A unique mix of the minimalistic soul of modernism, and the elegant and rich soul of classicism, VIC combines pure lines and understated shapes with decorative refined details.

# VIC

---

VIC

# VIC | Faucets

The design of the VIC collection is based on essential geometries - perfect circles and straight lines - but it's the detailing that transforms a modern shape into a sophisticated object. The simplicity of the faucet spout and body contrasts with the meticulous aesthetic of the classic handles and flanges.

# RAINBEAM

# Rainbeam

A simple design of striking beauty. A tiltable shower head that rains down beams of soothing water; caressing skin like moonbeams and sunlight. A lightweight hand shower for added convenience.

Under the Wave off Kanagawa ('Kanagawa oki nami ura' in Japanese), also famous as The Great Wave. A woodblock print by Katsushika Hokusai, created around 1830-32, it symbolises nature's power.

RAINJOY

---

RAINJOY

# Rainjoy

Featuring clean, aesthetic lines, and an abundant size, Rainjoy is a 'shower-spa' that envelops you with an array of soothing sensations. Inspired by nature's brilliant, rejuvenating ways with water, these include modes like Rain, Intense, Waterfall and even Mist, which are further heightened by Chromatherapy lights.

KAVALIER

# Kavalier | Faucets

With simple, synergistic lines and a progressive design sensibility, Kavalier's design questions the norm and presents a pleasing surprise in the form of its oval body, and a spout that channels water at the perfect angle for a refreshing flow.

ESPLENDA

# Esplenda | Faucets

Futuristic, round-edged shapes. A flattened tile design that is as simple as it is elegant. The bold, masculine lines of Esplenda are tempered with touches of softness. Its body is designed to conceal the operating levers perfectly, presenting you with a beautiful, intriguing design.

A water tower at the University of Aviero, Portugal, by architect Alvaro Siza Vieira. Built in 1988-89, the unique water tank features a vertical fin wall and a cylinder permitting access to the storage tank, and rises from a shallow reflecting pool.

LE BLANC

---

LE BLANC

# Le Blanc | Faucets

Straight lines, polished to a high shine make up the design signature of Le Blanc. Cueing precision, geometry and masculinity, the form is bold and arresting in its presence. An asymmetrical lever adds a modern touch of imbalance.

"Ruins with an obelisk in the distance" by Hubert Robert, 1775. Known as 'Capriccio' paintings, such creations mix reality and fantasy, and depict imagined views of architectural fantasies with the designs usually derived from classical architecture.

CELLINI

---

CELLINI

# Cellini | Faucets

The flat, graceful, swanlike curve of Cellini makes a stunning impression. Contemporary, and stylish, it is an elegant highlight that speaks of taste and refinement.

3/6 LPF

'Postman' by El Lissitzky, 1923. A Russian artist, graphic designer and photographer who influenced the De Stijl, Bauhaus, and Constructivist movements, he called such abstracts 'Prouns' - 'the interchange station between painting and architecture'.

XQUISITE

---

XQUISITE

# Xquisite | Faucets

Parallel curves, and the modern, geometric design of Xquisite make it, well, exquisite. The strong, straight lines are broken by the soft curving shapes, and this contrast creates a singular, appealing form.

CN Tower in Toronto, Canada was the world's tallest free-standing structure from 1975, when it was completed, till the Burj Khalifa surpassed it in 2007. Designed by WZMH Architects, the concrete tower is supported by a Y-shaped base, with each side narrowing gracefully to merge into a central, hexagonal core.

SIGNAC

---

SIGNAC

# Signac | Faucets

Tall, organic, and stately, Signac is a reed-like faucet that is inspired by nature. Minimal, and modern, it is a study in perfect curves, and polished detail.

'Still life with milk pot and fruits on a table', an oil on canvas painting by Paul Cezanne. One of the most influential French artists of the 19th century, Cezanne is considered the 'father of modern art' for creating the first post-impressionist works as well as Cubism in his art before the term existed.

Chromotherapy

A high-angle photograph of a modern, white, oval-shaped freestanding bathtub filled with water. The tub is set on a floor with large, light-colored marble tiles featuring dark, veined patterns. To the left of the tub is a gold-colored floor-mounted faucet and showerhead. In the background, a large window with white frames allows natural light into the room. To the right, a portion of a white vanity with a gold base and a white sink is visible. A grey, textured rug is partially seen in the bottom right corner.

## MAINTENANCE GUIDELINES FOR JAQUAR PRODUCT

Kindly follow the guidelines mentioned below to give you the best results and to maintain the finishes and longevity of the product

- Clean the product with water -soaked soft towel or bathing soap solution once in a day or two to keep the plated surface clean and free from any deposits.
- Don't use any type of cleaning/detergent agents which contain acids or chemicals such as flush cleaner, tile cleaner etc.
- Don't use salt or vinegar-based cleaning agents to remove scale or scale-related stains. They may damage the surface or finish of products.
- Special color combination products should not be rubbed by Emery paper/cleaning powder. This can cause abrasion.

You need to protect your product from:

### 1. Water Scaling:

Due to presence of minerals and salt in water, scaling is formed on the product if it is not cleaned regularly. The products should be cleaned gently at regular intervals. Also, take extra care to clean the edges and corners of the products because these areas are more vulnerable for scale settling. Clean the aerators from time to time for a perfect foam flow of water from the fittings. The property of water being used is very important for your plumbing installations (Pipes etc.), as well as for your own hygiene. The hardness of water should not exceed 300-400ppm.

### 2. Acid Fumes:

When we clean the tiles or floors in the bathroom with cleaning agents which contain acids or chemicals, acid fumes are formed. Because the basic material used in the products is brass, brass being an alloy of copper reacts with these acid fumes. With this reaction, a green colour layer is formed on the products resulting in damage to the outer finish or coating.

### 3. Scratching while cleaning:

Scratching or scrubbing occurs due to hard nature of cloth or coarse cleaning powder being used for cleaning. Use a gentle fluffy soft cloth for cleaning the surface.

### 4. Atmospheric conditions:

This condition applies mostly to salt content in the air in coastal areas, sometimes the air reacts with brass and black spots emerge on the surface of product. Therefore, the product is required to be cleaned regularly. At the time of installation of these products, cover the products with the cloth covers provided in packaging or with polythene till the time you actually start using them.

## Care and cleaning guidelines for Sanitaryware Products

Vitreous China sanitary ware products are fragile in nature and need to be handled with care (to avoid personal injury) at all times during its storage, handling, installation and use thereafter.

- The wash basin and water closet are heavy and it is recommended that two persons hold it while it is being fixed.
- Carefully inspect the new product for damage before installation.
- Risk of product damage. Over tightening may cause breakage or chipping of vitreous China.
- Risk of external leakage. Do not lift or rock the bowl after placement.
- Always test product cleaning solution on an inconspicuous area on the product before applying it to the entire surface.
- Do not allow cleaners to sit or soak on the product.
- Use a soft, dampened sponge or cloth to clean. Never use abrasive material like a bristle brush or scouring pad.
- Wipe surfaces clean and rinse completely with water immediately after applying cleaners.
